IAIS-T01: Keeping Up with the Algorithms: A Journey in Artificial Intelligence

Tuesday, May 7 8:30 AM – 9:20 AM

Moscone West 3001

Cancelled Speakers: Elvis Chan, Assistant Special Agent in Charge, FBI; Bryan Vorndran, Assistant Director, FBI

New Speakers: Jon Miller, CEO & Co-Founder, Halcyon; Joseph Szczerba, Section Chief, FBI

Jon was the chief research officer of Cylance (now Blackberry) where he focused on malware and product efficacy. Prior to Cylance, Jon was employee number 70 at Accuvant (now Optiv) where with a group of others he helped build and lead the largest technical consultancy at the time Accuvant LABS, working with over 95% of the Fortune 500 as an offensive security expert. Before Accuvant, Jon was a ten-year veteran penetration tester, serving as one of the first in the industry working for the Internet Security Systems (now IBM) X-Force. Jon is frequently featured in the media as an expert in information security and nation state cyber warfare, and has been featured as a guest on 60 Minutes multiple times.

Joseph Szczerba is a Senior Executive in the FBI's Cyber Division, leading personnel responsible for strategic cyber planning, intelligence analysis/production, and cyber program management across multiple cybersecurity verticals. Previously, he was responsible for cybercrime and emerging technology/critical infrastructure cyber threat analysis and led the FBI's CISO Academy. In his 15-year career he has worked in the FBI's Counterterrorism Division, the Directorate of Intelligence, and the Charlotte Field Office before coming to Cyber Division in early 2021. Joe received his Juris Doctor degree from the University of Buffalo and is admitted to the bar in the District of Columbia. He holds multiple information security certifications including CISM, CISSP, GISP, GPEN, GCIH, and CIPP/US.

KEY-T01SB: A World On Fire: Playing Defense in a Digitized World...and Winning

Tuesday, May 7 8:55 AM - 9:20 AM

Moscone South 203

Additional Speaker: Joesph Menn, Digital Threats Reporter, Washington Post

Joseph Menn is the digital threats reporter at the Washington Post and has also covered hacking at Reuters and Los Angeles Times. His books include "Cult of the Dead Cow: How the Original Hacking Supergroup Might Just Save the World," which explained the origins of hacktivism and ethical security work. The New York Times Book Review called it "a hugely important piece of the puzzle for anyone who

wants to understand the forces shaping the internet age,” and it was named one of the 10 best nonfiction works of the year by Hudson Booksellers. Joseph also wrote “Fatal System Error: The Hunt for the New Crime Lords Who Are Bringing Down the Internet,” a real-life thriller that first revealed collaboration between major governments and organized crime.

Thursday, May 9

Session Date/Time Change

CRYP-R01: Identity-Based Encryption

Thursday, May 9 8:30 AM – 9:20 AM

Moscone West 3000

New Track Session

PART2-R01: Remaining Resilient in the Supply Chainpocalypse

Thursday, May 9 8:30 AM – 9:20 AM

Moscone South 154

Speakers: Amit Chaudhry, Product and Solutions Marketing, Cloudflare; Jignesh Joshi, Global Cybersecurity Executive, Genentech; Larry Wiggins, Vice President, Security Operations and Technology, Cloudflare

Threat actors are constantly attempting to find and exploit the least common denominator—often a blip in the software supply chain. While the business impact of a third-party vendor can be transformative, they simultaneously exacerbate the attack surface and pathways for threat actors. This session will explore five steps toward achieving resilience when it comes to assessing third party vendors.

Nicole Wong is the Principal of NWong Strategies, and specializes in assisting high-growth technology companies develop international privacy, content, and regulatory strategies. She previously served as Deputy U.S. Chief Technology Officer in the Obama Administration, focused on internet, privacy, and innovation policy. Prior to her time in government, Ms. Wong was Google's Vice President and Deputy General Counsel, and Twitter's Legal Director for Products. She is an internationally recognized expert on privacy and free expression, and frequently speaks on issues related to law and technology. Ms. Wong serves on the boards of Filecoin Foundation, Open Technology Fund, and Mozilla Foundation. She also serves on the CISA Cybersecurity Advisory Committee.

New Birds of a Feather Session

BOF2-R06: Scalability and Necessity of Threat Intelligence Across Enterprises

Thursday, May 9 1:30 PM – 2:20 PM

Moscone West 20212

Speakers: Roxey Davis, Community and Conference Outreach Manager, Women's Cyberjutsu

Reflecting Sun Tzu's "Know thy enemy" from The Art of War, this session explores threat intelligence across varying enterprise sizes. We'll discuss its necessity and scalability. Does size influence the need? We'll examine if smaller businesses, often skeptical of its benefits, truly require such insights, aiming to optimize security practices tailored to each enterprise's needs.
