

iOS Tip Sheet

 **App Updates:** Depending on the level of Internet connection and how many updates your app is receiving; it may take a few seconds to open. The more frequently you refresh your app, the less time it will take to update. The app is native, so if you do experience low connectivity, cancel the updates for later on when it is stronger. When there is new information available, a red bar will appear at the top of the dashboard to encourage a refresh. If your updates run too long while connected to Wi-Fi, cancel and connect through your device 3G or 4G networks.

 **Profile:** Fill in your profile so you can invite your friends to use the app and email notes.

 **Alerts:** Important changes and notices will appear here. The most recent three alerts will sit at the top of the app dashboard under "Recent Activity". All alerts will automatically be stored in the Alerts icon on the dashboard. A red bubble indicates new alerts with a number in it on the Alerts icon. If your device is set up to accept push alerts, alerts from the mobile app may push through your device screen for viewing.

 **Speakers:** Browse a list of speakers and bios. See an alphabetized list by tapping the Speakers icon and quickly search by tapping the tiny magnifying glass at the top of the alphabet listing to the right. Speaker listings indicate corresponding sessions, including their roles at each. Tap the session to link directly there.

 **Attention Tweeters!** View and follow the conversation about the meeting or conference. Have a Twitter account? Join in by posting a Tweet!

 **My Schedule:** Tap the plus sign within the My Schedule icon at the top right to manually create a schedule entry. Alternatively, sessions can be added with one touch by tapping the star in the upper right-hand corner of the desired sessions page.

  **Facebook & LinkedIn:** Stay in the know by viewing trending topics on the Facebook page or LinkedIn group.

 **Downloads:** Once you've downloaded documents or handouts, they appear here. To delete a document from the downloads list, "swipe" to the left to prompt delete button.

 **Exhibitors:** Find exhibitors listed alphabetically and by category, or search using the magnifying glass on the dashboard. Bookmark an exhibitor by tapping the star on the upper right-hand corner of a listing. Review your list of bookmarked exhibitors by tapping the star in the list of *all* exhibitors on the title bar.

 **Events:** Browse by day to view the details of each session.

 **Maps:** Can't find a session room, bathroom or elevator? View and browse the floor plan. This is a great way to plan out your route before or during the conference. "Pinch" or "spread" the screen to zoom.

 **Local Places:** Browse a categorized list of local things to do and places to eat. Select a restaurant, museum, or location to interactively view maps for directions based on your location!

 **Show Documents:** Read, download, and email pdf show documents.

 **Home/Dashboard:** Tap the home/dashboard button while browsing any dashboard icon to shortcut back to the home screen. To go back one screen at a time, tap the back arrow directly to the right of the house icon.

 **Photo Gallery:** As the show organizers permit, upload photos you've taken throughout the show and share them with other app users. Take a photo with your phone device, and assign it's "save" location to the app for upload.

Additional Tips:

Tap the banner ad on the top of the dashboard to view more information from the show organizers.

Contact Core-apps directly by tapping the support@core-apps.com link provided in the "About this App" section for technical assistance.
