

# RSA®Conference2019 Asia Pacific & Japan

Singapore | 16–18 July | Marina Bay Sands

## PROGRAM GUIDE ADDENDUM

### KEYNOTE SESSION UPDATES

Wednesday, July 17

Keynotes	KEY-W06	14.35 - 15.15	Roselle Simpor 4700
----------	---------	---------------	---------------------

**New Session Added:**

**Think and Act Like a Hacker to Protect Your Company's Assets**

The reality here is as follows: attacks happen and they will happen as long as there are humans on this planet. However, they should not happen if you protect your infrastructure properly. Is there a weakness right now in your IT security system? Wouldn't it be better to find it before an untrusted source or hacker does? Even a small-scale security breach could leave your business in poor condition. Every day, you can apply some basic behaviours to protect your company from attack. It is really surprising how often a hacker can use the same paths to enter your system! In the end, information security is not an IT department's problem, it is a business issue! Let's put you into the hacker's role and perform all the activities they would to better understand the threats.

**Speaker:** Paula Januszkiewicz, CEO, CQURE

Keynotes	KEY-R05	14.15 – 15.15	Roselle Simpor 4700
