

RSA® CONFERENCE 2019 ASIA PACIFIC & JAPAN Call for Speakers Offline Submission Form

Thank you for submitting a session for consideration by the RSA Conference 2019 Asia Pacific & Japan Program Committee! We know your time is valuable and we appreciate your interest in contributing to the knowledge base of the cybersecurity community. RSA Conference is committed to diversity and inclusion, which includes gender, orientation, religion, nationality, and ethnicity, as well as diversity of experience brought to bear by virtue of position, responsibilities, and industry. RSA Conference is all about this intersection of ideas and experiences, and the strength of the intersection comes from the power of diversity.

To improve the likelihood that your proposal is selected, we recommend discussing timely technical topics, presenting in a unique format and supporting RSA Conference's diversity initiatives (especially if creating a co-presenter format)

SUBMITTER INFORMATION:

The information you provide in this section pertains to you as the Submitter. If you're also the Speaker, your account information can be carried forward in the Speaker Information section.

Please fill out the following information

SESSION INFORMATION

* = required input

- **Are you the proposed speaker?** *

If you are not the proposed speaker:

We require each proposed participant to approve their participation in the submission. Notifications will go out to all speakers and submissions will be disqualified if any participants have not approved their participation in the session.

- **Session Title** * (Limit 75 characters, *including spaces*)

Your session title should clearly indicate the topic of your presentation and do so in a way that attracts potential attendees for your presentation. Your title should attract the interest of the Program Committee – and subsequently your audience.

Enter Session Title Here

- **Session Detail** * (Limit 2,500 characters, *including spaces*.)

Describe your session here. What are the main points you plan to cover? (*Note: bullets not supported*) Describe the presentation flow. This is the most important part of your submission for Program Committee review—please be thorough and specific to increase your chance of acceptance by differentiating your submission from others.

Enter Session Details Here

- **Abstract** * (Limit 400 characters, *including spaces*)

In a few sentences, explain what your session will cover (please do not use bullets in your submission). This abstract will be included in our marketing materials, website and program guide. *NOTE: How long is 400 characters? This paragraph is 275 characters including spaces.*

Enter Abstract Here

- **Quick Abstract *** (Limit 200, characters *including spaces*)

This shorter abstract will be used for pocket guides, mobile apps, etc. *NOTE: How long is 200 characters? This paragraph is 156 characters including spaces.*

Enter Quick Abstract Here

Session Format * (select one)

Individual Speaker - One speaker only

Co-Speakers - This format has two speakers, one is designated as Primary Speaker and the other as Secondary Speaker. The Primary Speaker is the main contact for the RSA Conference Speaker Manager.

- **Will this presentation be seen elsewhere within 45 days before or after the Conference? *** Yes/No

If Yes, please specify:

- **Session Objectives** (Limit 100 characters *including spaces, per response*) *

Name the top 3 session objectives/takeaways **for your audience**. These objectives should give the attendee of your session an important overarching view of what they can expect to learn by attending your session. **Each objective should be phrased from the vantage point of the audience.** This information will also appear on the dedicated website session page to help attendees pick their sessions.

Example:

Objective 1: Understand three factors that must be present for fake news campaigns to succeed

Objective 2: Learn how to identify and trace these campaigns to the original perpetrators

Objective 3: Find out how to counter fake news and propaganda aimed at your organization

Objective 1: Enter your first objective here

Objective 2: Enter your second objective here

Objective 3: Enter your third objective here

- **Submitters Comments** (Limit 400 characters, *including spaces*)

Is there anything else you want to tell the Program Committee?

Enter your comments here

Session Profiling Information – The following information will help ensure that the attendees clearly understand if they have the appropriate experience to get the most

benefit from your session. After you have selected your classification, you will have the opportunity to define the prerequisite knowledge that will help the right people attend and get the most from your proposed session.

Session Classification * Please choose one of the following:

Intermediate

Focused on principles and concepts that would appeal to attendees with more than 5 years of experience. Little, if any, time is spent on definitional terms and concepts. Contains instructive demos, management tools, deep process discussions, or similar level of content.

Advanced

Focused on advanced principles and concepts, geared toward attendees with deep subject knowledge and 10 or more years of experience. Little/no time is spent on defining terms and background. These sessions are high in demand and should contain demonstrations, line code, advanced architecture discussions, tools that can be shared, or similar level of content.

General Interest

This classification is used for compelling strategic sessions and introductions to new technology.

What prerequisite knowledge should attendees of this session have (i.e. Programming Languages, understanding of specific techniques, etc.)*

Enter Prerequisite Details Here

Who is the target audience for this session? *

We are asking for specific target audience information so that we can provide recommendations to attendees based on their functional roles. TIP: The target audience for your talk should be specific – if you select all audience types below, the Program Committee may find your proposal not specific enough, and will likely not select your talk.
