

ANNUAL ROUNDTABLE WITH RSA CONFERENCE 2019 ADVISORY BOARD

Wednesday, February 13th

RSA[®]
Conference

Speaker Introductions

- ▶ Moderator: Todd Inskip – Principal, Commercial Consulting, **Booz Allen Hamilton**
 - Caroline Wong – Chief Security Strategist, **Cobalt.io**
 - Laura Koetzle – VP, Group Director, **Forrester Research**
 - Kim Jones – Professor of Practice, **Arizona State University**
 - Ed Skoudis – Founder, **Counter Hack**

Agenda

- ▶ DevSecOps
 - What does implementation look like and how can the transition be more seamless?
- ▶ Cloud Security
 - What lessons can it teach us about improved security?
- ▶ Cyber's War Paradigm Problem
 - Are there better analogies than war to use when talking about security?
- ▶ Identity
 - We often conflate identity and authentication; are we getting better at either?
- ▶ Security Due Diligence
 - What are the new challenges and risk factors resulting from M&A and divestitures?
- ▶ Threat Intelligence
 - How would real threat intelligence change the industry?

Resources: Relevant RSA Conference 2019 Sessions

▶ DevSecOps

- [Building Security In—DevSecOps](#) – Tuesday, March 5th

▶ Cloud Security

- [Advancing Cyber-Safeguarding in the Public Cloud](#) – Tuesday, March 5th
- [From Ephemeral Infrastructure to Ephemeral Communications](#) – Tuesday, March 5th
- [Using Automation to Help Achieve Security in a Multicloud Environment](#) – Tuesday, March 5th
- [Security at the Speed of DevOps: A Reality Check](#) – Tuesday, March 5th

Resources: Relevant RSA Conference 2019 Sessions

▶ Identity

- [Security, Privacy and Human Behavior](#) – Monday, March 4th
- [Studies of 2FA, Why Johnny Can't Use 2FA and How We Can Change That](#) – Tuesday, March 5th

▶ Threat Intelligence

- [How to Make Sense of Cybersecurity Frameworks](#) – Tuesday, March 5th
- [Bad Intelligence: Or How I Learned to Stop Buying and Love the Basics](#) – Tuesday, March 5th
- [Defining a Cyber-Risk Appetite That Works](#) – Wednesday, March 6th
- [The State of the Union on Cyber-Intelligence](#) – Wednesday, March 6th
- [Breaking Out of the Security Metrics Matrix: Steps in the Right Direction](#) – Wednesday, March 6th
