Cyber Incident

Gold team exercise

Date | Time

Agenda

- Introductions
- “Rules”
- Objectives
- Roles
- Off we go ...
- Wrap-up

Introductions

- What's your name and where do you come from?
- Your role today?
- What do you personally want to get out of the next 120 minutes?

Rules

This is a very
safe place

It's fine to
pause, stop,
think

If you feel
pressured,
say so

Have fun

It's fine to say "I
don't know"

We're all here to
learn...

Learning objectives

- Gaps in our knowledge
- Gaps in our processes
- Gaps in our technology
- Things we can do better
- Training our breach response in a safe way

Roles

Gold
Command

Record
Keeper

Observer(s)

Catcher of
lessons
learned

This is a role play – do what you would normally do

I'm not here to lead the incident or give advice

I will ask questions: “how, who, why ...”

I will be anyone we need who is not in the room and unavailable

There will be some scenario developments – but not as many as you might expect

Don't argue
with the scenario

Just run with it

We will have a data
breach or cyber
incident that you will
have to manage

Any questions?
